Dear James,

Thank you for asking QPK to quote for the replacement windows at your property.

All of our windows are created using Meranti Hardwood. Undercoated and spraypainted finished coats using weatherproof white eggshell paint. We have found this combination to be incredibly durable in the UK. You will find many companies that quote cheaply for windows, these companies use soft wood for the frames and boxes. We strongly recommend not using soft woods in the UK on any windows.

Our casement windows come in their traditional style with thin frames, Double Glazed units to current Building Control standards and internal euro locking systems. Standard ironmongery comes in the shape of a white handle. This can be upgraded to suit and should be discussed further if the quote is acceptable.
